

For each set of data, find the first quartile, the median, and the third quartile.

1. ~~15~~ 18 24 18 ~~12~~ 20 28 19 30 36

12, 15, $\overset{Q_1}{\textcircled{18}}$, 18, 19, $\overset{19.5}{|}$ 20, 24, $\overset{Q_3}{\textcircled{28}}$, 30, 36

For each set of data, find the first quartile, the median, and the third quartile.

2. 2.5 3.8 4.2 7.5 1.9 6.4 2.8 4.9 9.1 2.7

For each set of data, find the first quartile, the median, and the third quartile.

3. 45 65 37 49 50 39 48 66 32 54 68

For each set of data, find the first quartile, the median, and the third quartile.

4. 120 125 154 127 200 210 110 105 150

For each set of data, find the first quartile, the median, and the third quartile.

5. 98 76 88 90 80 70 66 76 82 64 72

6. Make a box-and-whisker plot for these golf scores.

76 88 80 70 75 90 85 86 75 92

7. Make a box-and-whisker plot for the data.
